2022

Pan-European Community of Practice

Change Management, guidelines to implement the proposed new standards.

Pan-EU CoP meeting **INVITATION**

The IM-SAFE consortium cordially invites you to join the interactive online Pan-European Forum on **'Change Management, guidelines to implement the proposed new standards'**.

The H2020 CSA IM-SAFE project is paving the road towards the improvement of maintenance policies for the European transport infrastructure. The main goal of this project is to support the preparation of the mandate for CEN standards for implementation of monitoring in safety assessment, risk evaluation and maintenance decision making for transport infrastructure.

For the members of the Pan-European IM-SAFE Community of Practice we will hold on the 13th of December an online workshop dedicated to:

- Guidelines for an adoption plan of new standards;
- Pilot project set-up recommendations.

During the online CoP meeting, input from the participants is welcome. Please find the schedule on the second page of this leaflet.

Participation is free-of-charge, but registration is required. Questions or input beforehand can be shared at the online registration form.

If you have any further questions, please contact us via info@im-safe-project.eu

On behalf of the IM-SAFE consortium,
Dr. Ir. Diego Allaix (TNO) – PAN EU CoP meeting Chair;
Dr. Ir. Agnieszka Bigaj van Vliet (TNO) – IM-SAFE project coordinator.

Pan-European Community of Practice

Change Management, guidelines to implement the proposed new standards.

Pan-EU CoP meeting **SCHEDULE**

14:00-14:05 Welcome

Agnieszka Bigaj van Vliet

TNO – The Netherlands

14:05-14:15 IM-SAFE proposal for new standardization on monitoring, data-informed safety assessment and maintenance of the transport infrastructure

Presented by: Diego Allaix

TNO – The Netherlands

Participants to the workshop will receive up-to-date information about the proposal drafted by the IM-SAFE consortium for the scope and content of the future European standards.

14:15-14:35 Session 1: Guidelines for the adoption plan of the new standards

Presented by: Jos Wessels

CROW – The Netherlands

In this presentation the known challenges for implementation are addressed. The options for EU to support the necessary activities will be discussed. And the draft result “guidelines for adoption plan” will be presented as a basis for comments.

14:40-15:00 Session 2: Recommendations about the set-up of pilot projects

Presented by: Paola Darò

SACERTIS – Italy

This session provides guidance on the set-up of pilot projects and recommendations for the follow-up upscaling to support the practical application of the 3 new standards on structural monitoring, data-informed safety assessment and preventive maintenance in real-world cases.

15:00-15:30 Q&A of participants

The IM-SAFE project is very interested in the input from the Pan-EU CoP members for these topics!
